DRAWER SYSTEMS

4

Drawer Systems

Big Country 4x4 manufactures two ranges of drawer systems

ZAMBEZI

Best suited for LDV's

Reason:

- LDV loadbay is generally longer than 1200mm - fully loaded drawers can get heavy
- LDV loadbay can be a dirty place not suited to telescopic sliders

The drawers run on heavy duty sealed roller bearings (30x10) capable of handling heavy loads.

Drawers are good for loads of 200kg per drawer.

Supplied with an integral pull-out sliding top ideal for mounting a fridge.

An easily available plastic "meat tray" works excellently.

LandCruiser 79
Hilux
Ford Ranger
VW Amarok
Defender 130
Nissan
Isuzu
Triton
Colt

SAVUTE

Best suited for SUV's

Reason:

- Shorter loadbays, seldom longer than 1000mm
- Cleaner environment
- A neater finished off product is required

Drawers slide out their full length.

Most models supplied complete with trays and dividers for optimum packing efficiency.

Very easy to add a fridge slider and remove it between trips.

Loadbay still very useable between trips.

LandCruiser 76 SW
Fortuner
LandCruiser 80
LandCruiser 100
LandCruiser 200
Prado 120
Prado 150
Disco 3 or 4
FJ Cruiser
Pajero CK LWB
Defender 90/110
Merc GWagon
Nissan Patrol Y61
Jeep Wrangler
Suzuki Jimny

SAVUTE
