Unit 4, 7 Quantum Link, Wangara 6065, Western Australia

WHEN ONLY THE BEST WILL DO...

If you want strength, quality, durability and ease of use from your 4WD awning, then congratulations... you just found it.

Built tougher than anything Australia has seen before, the Ostrich Wing Awning will get you in the shade in 30 seconds and won't break in a breeze. Forget about poles and ropes until it gets really windy and then you simply swing down the attached telescopic pole. Being so quick, easy and durable, the Ostrich Wing Awning will outlast and get more use than an ordinary awning, making it exceptional value for money. Made in South Africa, the Ostrich Wing Awning has been sold in Australia since 2012 and it has been PROVEN to withstand the harsh Australian climate and is backed by a one year warranty.
